

Listing Criteria of the PPP projects on PPP database

The objective of the PPP database is to profile PPP projects that are under bidding or under implementation stages. Since, development and implementation of PPP projects is done through a number of stages and there are PPP initiatives across multiple sectors, in order to bring out a meaningful and comprehensive reflection, the following criteria has been laid down for a project to be profiled in the database.

- Projects beyond RFP stage
- Projects above value of Rs. 5 crore
- Projects in physical infrastructure sectors to be covered
 - Airports
 - Education
 - Health Care
 - Ports
 - Power
 - Railways
 - Road
 - Tourism
 - Urban Development

It should be noted that these criteria are indicative and subject to change based on periodic review. Further, depending on feedback and consultations with PPP cells in line ministries and at the Department of Economic Affairs Ministry of Finance Government of India, other projects that may not meet some or all these criteria may also be included
